

# ZEENAT LABORATORIES (TML)

Head Office 36, Lawrence Road, Lahore Punjab Pakistan

Tel:0423-6361417 Phone: 0312-4982126

Website : www.zeenatlabs.com

## PATIENT REPORT

Patient No : 

**ML26258794**

Name : **SHUMAILA NAWAZ**

Age/Gender : 27 Y / Female

CNIC : 35202-4422627-4

Passport : HF9616271

Phone : 000000000000

Address: N/A

Order No:

**ML26258794**

Location Name: ZEENAT LAB

Collection Date/Time: 19-12-2021 01:35 AM

Report Date/Time: 19-12-2021 02:58 PM

Flight No: ER-723

Flight Date: 20-12-2021 11:25 AM

Ticket No/PNR: MVVEXN

Ref By: SERINE AIRLINE

Destination: DUBAI

Collection Center: Zeenat Lab

## MOLECULAR BIOLOGY

### Division Of Molecular Diagnostics

### Reason for Request: COVID-19 PCR.

Source: Oropharyngeal Swab & Nasopharyngeal Swab.

Result: COVID-19 RNA Not-Detected

### Method:

High efficiency nucleic acid release technology is applied in this assay to achieve ultra-rapid release of viral nucleic acids. Extracted RNA is used for probe-based fluorescent PCR to detect the corona virus 2019 (COVID-19) RNA. Specific primers and probe are used to detect ORF1 ab gene of COVID-19.

As accuracy of PCR from Oropharyngeal swab and/or Nasopharyngeal swab is about 60%. This result might be used to aid in the diagnosis of COVID-19 infection. It should not be used as conclusive evidence of the infection nor exclusion of the disease.

Dr. Zeenat Hussain  
M.B.B.S (Pb), M.Sc.(B"gham)  
Consultant Pathologist
